About the Workshop:

Since the publication of Dr. Edwin Friedman's *Generation to Generation*, many pastors and other church leaders have become aware of Bowen family systems theory as a way of understanding congregational dynamics. Family systems theory identifies differentiation of self and anxiety as two key variables impacting human functioning. The seminar on *Leadership and Anxiety in the Church* looks at the challenge presented by the rising levels of anxiety being experienced in churches today, as well as the role that self-differentiated leadership can play in calming such anxiety.

The seminar is comprised of a series of PowerPoint presentations originally conceived for LMPC's *Advanced Clergy Clinic in Family Emotional Process*. Works of art illustrating Biblical themes from the Medieval, Renaissance, and Baroque eras are integrated at various points to facilitate theological reflection on the themes being presented.

The seminar on *Leadership and Anxiety in the Church* is being offered by Lombard Mennonite Peace Center as part of its ongoing mission to help Christ's church grow in health and wholeness, into all that God wants it to be.

- Understand Emotional Triangles and the Importance of Maintaining Non-Anxious Presence
- Recognize the Role of Playfulness in Defusing Anxiety
- See Self-Differentiated Leadership as a Key to Overcoming the Impact of Anxiety
